The sum of \$27.75 returned to the town given in Order No. 100, reduces the total expenditures that amount.

Report of School Board.

Another year is past and again it becomes our duty to report the condition of our schools.

SCHOOL HOUSES.

Repairs to some extent have been made in No. 3. No. 1 was repaired as far as amount of appropriation would admit. The outside was papered and clapboarded. A new floor was laid in the entry and wood room. It was also furnished with new doors and some other necessary repairs made. Further repairs are needed, but could not be made at this time for lack of funds. Other houses need repairs soon, and it would be well to appropriate sufficient to put such houses in suitable condition for the purpose for which they were designed.

TEACHERS.

All our teachers have been residents in town. With two exceptions all have taught school in town in previous years. We believe that whatever may have been accomplished, all have endeavored to be earnest and faithful in their school duties. While all may not have met with equal success, and much that has been done might be criticized, we believe a fair amount of good has been accomplished in every school.

SCHOOLS.

Good order has generally prevailed. No serious disturbances have been reported. Pupils have generally made fair progress in the studies pursued, with good understanding of subjects under consideration. Excellent improvement in reading in schools 2 and 12 was evident. Special exercises in penmanship and mental arithmetic in No. 1, and in physiology and geography in No. 4, produced excellent results both as to attainment of knowledge and in discipline. Schools 1, 2 and 4 excelled in nearly all branches taught. The average attendance in schools 1, 9 and 10 was somewhat reduced by sickness and removals of families during terms. Fewer dismissals during school hours in schools 5 and 6 would be desirable. To receive the fullest benefit of schools, pupils must be regular and punctual in their attendance and be present at all exercises
